## CONTEXT

The XOESE International Francophone Forum is an event dedicated exclusively to strengthening the francophone women's rights movement. It brings together key leaders of the movement, defenders of women's rights and social justice from different social movements, as well as development practitioners, donors and policy-makers.

The first edition of the Francophone Forum took place in November 2021 and was four days of meetings, exchanges and work between key players in the movement of all ages, from all backgrounds and with different experiences. Participants had the opportunity to interact with each other and with the partners who support them.

This first edition gave an opportunity to the movement's stakeholders to spend some enriching time, exchanging views on issues that they do not usually address, at least not in a formal setting, and to develop strategies for working together to strengthen their movement, beyond their differences and divergences. In the evaluation of Forum 2021, 77% of participants said that their commitment to working towards common goals with other activists or organizations had been strengthened.

In order to perpetuate this framework for exchanges between players in the women's movement, XOESE is launching the second edition of the Francophone Forum, which will be held in a hybrid format: **In person in Lomé (Togo) and simultaneously online, from 27 to 30 November 2023** on the theme: «**Building the Francophone Feminist Movement: Where to Start?**»

## GOALS AND OBJECTIVES OF THE 2023 FORUM

The goals of the 2023 Francophone Forum are to :

- 1.** Increase the feminist commitment of the Francophone women's movement;
- 2.** Increase the commitment of donors and other stakeholders to strategic and sustainable support for the Francophone women's movement.

More specifically, it aims to :

- 1** Create a safe space for open and constructive exchanges and discussions on the fundamentals of the women's movement and the feminist movement;
- 2** Demystify feminism and make it easier for those involved in the movement to adopt and integrate its principles into their daily lives;
- 3** Give women involved in the movement the opportunity to re-invent solutions to the problems of their communities by carrying out in-depth reflections on the effectiveness and efficiency of their operational strategies;
- 4** Create opportunities for interaction between the movement's stakeholders and their donors with the purpose of strengthening their ties, increasing their mutual understanding of their challenges and expectations, and facilitating the transfer of resources.

## FORUM 2023 SPACES

The Forum will be :

**An open space:** \_\_\_\_\_

We will ensure that the Forum is a welcoming space for all participants;

**An accessible and inclusive space:** \_\_\_\_\_

We will be organizing discussions with participants from marginalized groups (women with disabilities, indigenous women, LGBTQI+, migrants, refugees, Internally Displaced persons "IDPs", etc.) in order to improve our knowledge and practices in terms of accessibility and inclusiveness;

**A collaborative space:** \_\_\_\_\_

to help create or strengthen current, intergenerational and transnational links between various activists from today's fragmented movements;

**A caring space:** \_\_\_\_\_

This will allow us to begin discussions on how to address issues of personal and collective care within the movement (how each advocate should take care of herself and her sisters), how to maintain the energy and strength of the movement, prevent burnout, take good care of ourselves while taking care of our beneficiaries with limited resources ;

**A relaxing and friendly space:** \_\_\_\_\_

Where fun, recreational and relaxing activities will be organized/led by specialists to contribute to the general well-being of the participants of the Forum;

**A space for meetings and exchanges:** \_\_\_\_\_

where activists and supporters from different backgrounds will have the opportunity to meet, exchange ideas, build connections, form alliances, develop strategies, make commitments and invent new solutions to strengthen and sustain the movement.

- Sexuality: Let's discuss it without filter;
- Sexual orientation: questioning and acceptance;

- Where are the funds for Francophone women's and young women's organizations?
- Where are the funds to build and strengthen the internal systems of French-speaking women's and young women's organizations and professionalize them?
- Decolonising funding: How? Why? When?
- Unlock existing funds and find new sources of funding?
- Fund the movement differently: dare to support the real needs and agenda of the movement and not those of donors,
- Invest in funding the production of knowledge (studies, analyses, etc.)
- etc.
